

# How to install the XMP files into Lightroom

**On Mac, copy the XMP files into:**

/Users/**username**/Library/Application Support/Adobe/CameraRaw/Settings

**On Windows, copy the XMP files into:**

C:\Users\**username**\AppData\Roaming\Adobe\CameraRaw\Settings

Now, in Lightroom, go to **Develop** tab and click the « four squares » icon as shown below:

All the LUTs will be displayed under « **User Profiles** » section:
